Total Revenue + Tax Levy	\$20,254,392	\$19,206,645

New Initiatives/Program Highlights

Essentials of the SMART Phone

- Is a presentation that has been mobilized to reach congregate sites and events targeting older adults in-person across Westchester County as well as virtually. Topics covered include basic functionality of Android and Apple devices as well as safety, Wi-Fi, personalization, applications, and consumer considerations. This information is delivered via PowerPoint presentation. One-on-One Instruction is also available as a follow-up offering. Satisfaction surveys are utilized, and the number served is recorded for each session. Now older adults can do more than just make calls!

Livable Communities Caregivers Coaching + Program

- The program prepares volunteers for an enhanced “good neighbor” role as Caregiver Coaches, they are people who provide support and information to family caregivers. Uniquely, this program uses the telephone as its communication platform, which makes it adaptable to all situations and geographies. We have expanded the curriculum to cover COVID-19 resources and valuable information and tips on social isolation and loneliness.

Telehealth-TIPS-at-Home Program

- Modeled after the Telehealth Intervention Programs for Seniors (TIPS) delivers remote patient monitoring to seniors with high health risk and provides access to a variety of social supports or wrap around services for older adults. We are now offering TIPS- at-Home for participants in need of special attention and enhanced communication from the telehealth nurse. User friendly equipment is installed in the home and participants are trained on how to take their own vitals. Social support associates communicate frequently with the senior. TIPS is offered at 17 sites and to over 1,600 individuals.

Health for Life Programs (HeLP) LIVE Workshop (Virtual)

- These free online, face-to-face and telephone workshops are offered by Westchester County Department of Senior Programs and Services for older adult residents and their caregivers. The workshop meets once a week for 6 weeks. It is highly interactive with the opportunity to learn how to better manage your health. Six versions are offered: Chronic Disease Self-Management Program; Pain Management Program; Tomando Control de Salud, offered in Spanish, Building Better Caregivers, Workplace Wellness and Diabetes Management Program.
